

Blood glucose monitoring: check the whole system

Comparing self-monitoring and laboratory monitoring results

BGM result 1:

BGM result 2:

Average BGL on BGM: _____

BGL on laboratory measurement: _____

Accuracy and variability

- Accuracy is indicated by the difference between the average of the two BGLs on BGM and the laboratory value for BGL
- Variability is indicated by the difference between the two BGLs on BGM

Abbreviations: BGL = blood glucose level; BGM = blood glucose monitoring.
